

## **INFORMATION-PRICE LIST** **SPORTS - COLOR PRINTS**

### **INFORMATION**

**Photographic prints:** Printing is done at a professional custom color photo lab. All prints are of the highest quality. The surface is a low luster.

**Dry mounting:** This is a process by which a print is permanently bonded to a smooth surfaced board. This is recommended for prints 11"x14" and larger to insure a smooth surface when hung. Dry mounted prints usually can be inserted easily into a ready-made frame.

**Dry mounting on gatorfoam board:** Gatorfoam is a rigid 3/16" black board. This provides the sturdiest backing. This is available for all prints 8"x10" and larger and recommended for prints 16"x20" and larger.

**NEW: Dry mounting on black art board:** Art board is a 1/8" black mat board. This is more economical than the gatorfoam board and on prints 11"x14" and smaller an easel can be ordered at no extra charge. For prints 16"x20" and larger, while mounting on mat board keeps the print flat you may need additional backing support for framing and hanging.

**Laminating** involves bonding a thin soft matte polyester film, with UV protection, to the front of a photo. This provides an invisible protective surface to your print. Laminating is a necessity if you plan to hang a mounted print without a frame and glass.

**Framing** is available. Custom framing includes metal frame (choice of black, silver or gold metal) and UV protective glass. Custom colors are available for an extra charge, usually about \$10; please call for options. If the print is framed to the edge, spacers are used so that the surface of the print does not touch the glass. If the print is matted, the window mat is made from white archival mat board. For best results, photographic prints 11"x14" and larger should be dry mounted before framing.

**Cropping:** Most images are displayed full frame—as shot. These need some cropping to make the best-looking print. In addition, common size prints are not all the same proportions. For example, 5"x7" is similar to full frame and more rectangular; while 8"x10", 11"x14" and 16"x20" are all similar in proportion and less rectangular. I now offer an 8"x12" print which is actually the same proportions as full frame and the most rectangular.

**Who might enjoy a print?** As you consider whether single prints or a collection might suit your needs, remember others who might like a print—grandparents and other family members as well as your player!

**Ordering information** is available on the Sports Order Form.

**Questions?** If you have any questions, or would just like more information, I would be very happy to talk with you. You can reach me at 704-554-8543 or fgjonas@aol.com.

**YOUR SATISFACTION IS GUARANTEED!**
